Telecommunications Policy

Index to Volume 13

March, June, September and December 1989

Articles – titles

Anticompetitive use of excess capacity in international telecommunications, *Leland L. Johnson*, **13**, 3, 223–232

Brazil's satellite system: the politics of applications planning, *Greta S. Nettleton and Emile G. McAnany*, **13**, 2, 159–166

The Canada–US Free Trade Agreement and the telecommunications industry, *Steven Globerman and Peter Booth*, **13**, 4, 319–328

Canadian telecommunications: technological change, structural regulation and entry, *Michael J. Quayle*, **13**, 2, 145–158

Corporate networks, privatization and state sovereignty: pending issues for the 1990s?, *Manley R. Irwin and Michael J. Merenda*, **13**, 4, 329–335

DBS policymaking in Japan: an interpretive history, *Roya Akhavan-Majid*, **13**, 4, 363–370

Defining information: an approach for policymakers, *Sandra Braman*, **13**, 3, 233–242

The diffusion of information technology and the demand for telecommunication services, *Cristiano Antonelli*, **13**, 3, 255–264

Divestiture policy considerations in an information services world, *Timothy J. Brennan*, **13**, 3, 243–254

The effect of subscriber line charges on residential telephone bills, *Alexander C. Larson, Thomas J. Makarewicz and Calvin S. Monson*, **13**, 4, 337–354

Financing development assistance in the ITU, *George Codding*, **13**, 1, 13–24

The future of telecommunications in Hong Kong, *John Ure*, **13**, 4, 371–378

International telecommunications and trade in services: policy perspectives, *John V. Langdale*, **13**, 3, 203–222

Local transport competition in US telecommunications, *Brooks B. Albery and Peter J. Grandstaff*, **13**, 4, 355–362

The Morelos satellite system in Mexico: a contextual analysis, *Jorge Borrego and Bella Mody*, **13**, 3, 265–276

The Nordic telecottages: community teleservice centres for rural regions, *Lars Qvortrup*, **13**, 1, 59–68

The Pacific Islands: policy options for telecommunications investment, *Meheroo Jussawalla and Michael R. Ogden*, **13**, 1, 40–50

Telecom traffic statistics – MiTT matter: improving economic forecasting and regulatory policy, *Gregory C. Staple and Mark Mullins*, **13**, 2, 105–128

The telecommunications equipment industry: recent changes in its international trade pattern, *Werner Neu and Thomas Schnöring*, **13**, 1, 25–39

Universal service: liberalization and privatization of telecommunications, *Jill Hills*, **13**, 2, 129–144

US–Caribbean telecommunications: making great strides in development, *Donna A. Demac and Ruth J. Morrison*, **13**, 1, 51–58

Book reviews

Beyond Computopia: Information, Automation and Democracy in Japan by Tessa Morris-Suzuki (reviewed by Asu

Aksoy), **13**, 3, 283–285

Changing the Rules: Technological Change, International Competition and Regulation in Communications edited by R.W. Crandall and K. Flamm (reviewed by Michael Beesley), **13**, 4, 385–387

The Deal of the Century: The Breakup of AT&T by Steve Coll (reviewed by Gareth Locksley), **13**, 1, 79–80

The Fall of the Bell System by Peter Temin and Louis Galambos (reviewed by Gareth Locksley), **13**, 1, 79–80

Home Informatics: Information Technology and the Transformation of Everyday Life by Ian Miles (reviewed by Asu Aksoy), **13**, 1, 80–82

The International Telecommunications Satellite Organization (INTELSAT): Economic and Institutional Challenges Facing an International Organization by Marcellus Snow (reviewed by Larry F. Martinez), **13**, 1, 77–78

ISDN: Customer Premises Equipment by Stephen Timms, Janet Bunce and Richard Kee (reviewed by Joe Pilcher), **13**, 4, 387–388

The Law and Regulation of International Space Communication by Rita Lauria White and Harold M. White, Jr (reviewed by Carl Q. Christol), **13**, 3, 285–287

Law of International Telecommunications in India by K.D. Gaur (reviewed by Satya Pal), **13**, 3, 288–289

New Electronic Pathways: Videotex, Telex and On-Line Data Bases by Jerome Aumente (reviewed by Martin C.J. Elton), **13**, 2, 176–177

New Telecommunications Services: Videotex Development Strategies by the OECD (reviewed by Martin C.J. Elton), **13**, 2, 176–177

The Political Economy of Information edited by Vincent Mosco and Janet Wasko (reviewed by Jill Hills), **13**, 4, 383–384

Telecommunications World Outlook and Forecast by The Telecommunications Research Centre (reviewed by A.E. Cawkell), **13**, 3, 287–288

The United States and the Direct Broadcasting Satellite: The Politics of International Broadcasting in Space by Sara Fletcher Luther (reviewed by George Codding), **13**, 4, 384–385

Conference reports/Reports

The AT&T Divestiture after Five Years, Washington, DC, 2–3 March 1989, *Douglas A. Conn and Sherry Emery*, **13**, 4, 379–381

Communications for Societies in Transition – 19th Annual Conference of the International Institute of Communications, Washington, DC, 11–16 September 1988, *Eileen Mahoney*, **13**, 1, 71–73

Computer conferencing in China, *Ji-xuan Hu and Stuart A. Umpleby*, **13**, 1, 69

Conference on Telecommunications in the Pacific Basin, Tokyo, Japan, 29–31 October 1988, *Douglas A. Conn*, **13**, 2, 171–174

Conference on Telecommunications, the Economy and Society – Scientific Days '88, Budapest, Hungary, 5–7 October 1988, *Marec Bela Steffens*, **13**, 1, 70–71

The Future of Telecommunications in Europe, Conference of the Scientific Institute for Communication Services of the Deutsche Bundespost, Bonn, West Germany, 14–15 November 1988, *Marec Bela Steffens*, **13**, 2, 174–175

Networks '89 Conference, Birmingham UK, 6–8 June 1989, *Asu Aksoy*, **13**, 4, 381–383

Pacific Telecommunications Council Eleventh Annual Conference, Honolulu, Hawaii, 15–18 January 1989, *Marcellus S. Snow*, **13**, 2, 170–171

Research Planning Workshop and Conference on Applications of ISDN: An International Perspective on User Research, Munich, West Germany, 22–24 June 1987, *John Carey and Martin Elton*, **13**, 1, 74–77

Second International Conference on Telecommunications Policy and Regulations, the Agenda for the 1990s, Amsterdam, The Netherlands, 18–29 April 1989, *Sandy Skinner*, **13**, 3, 282–283

Comment

The broadbandwagon!: a personal view of optical fibre to the home, *A. Michael Noll*, **13**, 3, 197–201

The Canada–US Free Trade Agreement, *H.N. Janisch*, **13**, 2, 99–103

Customer needs and quality of service: a major issue, *Louis T. Brewer*, **13**, 1, 2–9

The EC Green Paper: what the future holds, *Keith E. Bernard*, **13**, 4, 313–317

The EC telecommunications sector: some controversies, *Emilio Lera Salso*, **13**, 1, 10–12

The evolution of the policy and regulatory framework in the UK, *David Gillick*, **13**, 3, 186–193

From loading coils to microwaves: the rise and fall of Bell, *Dean Gillette*, **13**, 4, 309–312

International accounting rates: a different approach?, *K.W. Sissons and J. Solomon*, **13**, 2, 90–93

The survival of knowledge: the New Zealand plan, *Robert L. Hilliard*, **13**, 2, 94–98

Telecommunications and economic development: an incipient rhetoric, *Sharon Strover*, **13**, 3, 194–196

US communications policymaking: returning power to the presidency, *Stuart N. Brotman*, **13**, 4, 302–308

Rejoinder/Letters to the editor

Microeconomic theory and critical mass: a response to David Allen, *Hugh S. Fullerton*, **13**, 2, 167–168

Taking up the challenge, *David Allen*, **13**, 2, 168–169
